Your Leading Plyform Suppliers

## **WISE – FORM MDO OVERLAY POPLAR CORE**

WISE – FORM MDO is the NO.1 panel choice for formwork applications where a MATT Concrete Finish is desired. The medium density overlay on the face is especially designed to minimize grain transfer to the concrete face. The result is a consistent, smooth MATT Concrete Surface. The base panel is lightweight which makes it easy to handle on the construction site.

### **BASEBOARD**

Plywood made solely from Poplar veneers bonded together in a cross banded construction.

### **BONDING**

Weather resistant glueing according to EN314-2/Class 3.

### **SURFACE AND EDGES**

FACE: MDO Coating for matt concrete finish.

REVERSE: Dark Brown Phenolic Film as moisture barrier.

EDGE SEALING: Water Resistant Paint.

PANEL SIZE: 18mm

### **REUSES:**

Typical number of resuses is likely to be in the range of 10-15 times. However, the number of uses will depend on a wide range of factors including good site practice, the required concrete finish, careful handling & storage of forms and the type and quality of release agent.

### **FORM RELEASE AGENTS**

The selection of the most suitable release agent will ensure cleaner striking of the forms and thus more uses, as well as better concrete finishes. The chemically active release agents are considered to be the most suitable for MDO coating.

### **IMPORTANT NOTE**

**MDO COATING IS NOT PRE-OILED AND MUST BE OILED TWICE BEFORE FIRST USE, AND THEREAFTER ONCE BEFORE EACH SUBSEQUENT REUSE OF FORM.**
